

Sophia University Academic Research Special Promotion Project
Comparative and International Education Research on Education for Sustainable Development in Asia

The roles of education and teachers for the sustainable futures

This symposium aims to clarify the role of teachers in education for sustainable development (ESD), using the activities of the Teacher Education Network in Japan and Korea as examples. This symposium is held to commemorate the recent signing of an academic exchange agreement between Sophia University and the Asia-Pacific Centre of Education for International Understanding (APCEIU).

M C

Mr. Brenson Andres Graduate Program in Education, Sophia Univ.
